

HOSPICE UK, PUBLIC PERCEPTIONS SURVEY, OCTOBER 2017

ComRes interviewed 2,120 UK adults aged 18+ online on the 7th and 8th of August 2017. Data were weighted to be demographically representative of all UK adults by age, gender and region. ComRes is a member of the British Polling Council and abides by its rules.

All press releases or other publications must be checked with ComRes before use. ComRes requires 48 hours to check a press release unless otherwise agreed.

For information about commissioning research please contact info@comresglobal.com or call +44 (0)20 7871 8660.

Table 29

Q.13 To what extent do you agree or disagree with each of the following statements about hospices?

Summary

Base: All respondents

		Statements					
		Hospice care is relevant for me	It would never occur to me to look for support from a hospice	Hospice care is not for people like me	Hospices do enough to cater to the needs of people from all walks of life (e.g. different faiths, ethnicities, sexual orientations etc.)	I would not feel comfortable at the thought of being cared for by a hospice because I would want my family to care for me in my final days	I don't know enough about how hospices operate to form an opinion on how trustworthy they are
